

Canadian Numismatic Correspondence Course - Part II

Since the release of the original correspondence course in 1995, there has been an overwhelming demand to create a new course for collectors. This new course consists of seventeen chapters and has a total of 486 pages with hundreds of photos and includes all new material from what was featured in Part I. Each chapter was written by a qualified expert in their numismatic field and the material covered is more in-depth and detailed than the first course.
